Cylindrical containers, with a special snap-on lid with easy-open tabs. Endless combinations to enable the packaging of a multitude of solid products: pastes, plasters, putties, waxes, etc.

### **PACKAGING DETAILS**

Intended primarily for domestic use, cylindrical containers are designed for various types of solid products and are easy to handle.

### MAIN FEATURES:

- The containers can be supplied externally lithographed.
- The containers can also be painted internally, for water-based products.
